## Big Days: State, Regional, Seasonal, Non-Motorized & County

### Illinois Big Days (by month)

Big Day rules: 95% of all species must be ID'd by all observers. An amazing tally of 171 species broke the one year old record for the month of April. The team of Bailey, Mahan and Taylor now stand as 'Kings of April'. Another excellent tally was recorded by the Bennett, Chapman and McMullen team when they recorded 167 species - good for third highest ever in April history. The third highest February Big Day was set last year by the Erb, Guarente and Lambeth team. The Gordon, Lill, Sundberg and Sundberg team had a low June tally by their standards, but it still was the third highest ever for June (and the highest ever recorded in northern region). They now hold the top three spots on the June list; will any other team ever challenge them? -EW

## Top Five per Month by Region (top ten in May)

There were 17 additions to this list, so challenging targets for each region continue to be established. Besides the aforementioned northern region June record (third best alltime), the April record tally was also the third highest southern region Big Day irrespective of month. The February central region also has a new record as do the November and December multi-regions. Second highest tallies include: January's central region; March's southern and central; July's central; November's northern. -EW
