## Total Counties per Species List

(Top five totals per county - 102 possible counties)

This new list is in response to a number of requests. I find it fascinating, as it's different data than you get from the Spring/Christmas counts and the Breeding Bird Survey. Since it's the first year, I expect quite a bit of revision next year. Some historical data has been included, based on the books and journals written by Fr. Jacques Marquette, Robert Kennicott and others, along with sightings collated from contemporary literature. The order of species corresponds to the most recent revision of the ABA list. -JL
