

IOS Listers Corner 2011

Total Counties per Species List - Central Region

(Top five totals per county - 40 possible counties)

The Regional TCPS lists are new this year, and we're excited to see where they go in the future. Between gas prices and the time it takes to wander a very long state, it's no wonder that many birders have been focusing their energies in closer proximity to their homes. We expect that these lists will look very different next year!

The *Illinois Regional Map* can be accessed from the Listers Corner home page.

"Multiple observers" means that 10+ birders have reported the same total.
